Education

BVRIT Hyderabad College of Engineering for Women B.Tech in Computer Science and Engineering (AI & ML) CGPA: 9.20	2024 – 2028
Alphores Junior College Percentage: 96.56%	2022 – 2024
Alphores High School Percentage: 87.6%	2022

Technical Skills

Programming Languages: Python, Java

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems

Libraries/Tools: Pandas, NumPy, Matplotlib, Git, GitHub, VS Code, Excel

Projects

Road Accident Analysis and Prediction (RTRP) – Python

- Analyzed road accident datasets to identify accident-prone factors and patterns.
- Performed data cleaning, preprocessing, and exploratory data analysis using Python.
- Studied the impact of weather conditions, road types, and traffic density on accident occurrence.
- Created visualizations and reports to support data-driven road safety recommendations.

OS Resource Monitoring Dashboard – Python

- Developed a dashboard to monitor CPU, memory, disk usage, and running processes.
- Collected and analyzed system performance metrics in real time.
- Applied operating system concepts related to process management and resource allocation.
- Improved understanding of system monitoring and performance analysis.

College Leave Application System – Java

- Developed a leave management system using Java and Object-Oriented Programming principles.
- Implemented leave request submission and approval workflow.
- Managed leave records and automated basic administrative tasks.
- Applied concepts such as inheritance, encapsulation, and exception handling.

Achievements

- Secured **AIR 5804** in AINCAT (All India National Coding Aptitude Test).
- Maintained a **CGPA of 9.20** in B.Tech CSE (AI & ML).
- Earned **Elite Certification** in NPTEL Database Management Systems with **68%**.

Certifications

NPTEL Database Management Systems (Elite)	2026
• Covered database design, SQL, normalization, transaction management, indexing, and concurrency control. • Earned Elite certification by demonstrating strong understanding of DBMS concepts.	
Data Analysis with Python (IBM Developer Skills Network)	2026
• Learned data cleaning, preprocessing, exploratory data analysis, and visualization using Python. • Applied analytical techniques to derive meaningful insights from real-world datasets.	
Introduction to Generative AI Studio (Google Cloud & Simplilearn)	2025
• Explored Generative AI concepts, Large Language Models (LLMs), and prompt engineering. • Studied real-world AI applications and emerging trends in AI technologies.	
Python for Beginners (Simplilearn SkillUp)	2025
• Built a foundation in Python programming, including data structures, functions, and object-oriented programming. • Developed problem-solving skills through hands-on coding exercises.	

Relevant Coursework

- Data Structures and Algorithms
- Operating Systems
- Database Management Systems
- Artificial Intelligence Fundamentals
- Data Analytics

Hackathons, Events & Volunteering

AI Summit (HCL & GUVI) 2026

- Participated in expert sessions on Artificial Intelligence, Machine Learning, and Generative AI.
- Explored industry applications, emerging technologies, and career opportunities in AI.

Being Zero Coding League Contest 2026

- Participated in a competitive programming contest focused on algorithmic problem solving.
- Improved logical reasoning, debugging, and coding skills through coding challenges.

Pivot 2.0 Hackathon Volunteer 2026

- Volunteered in organizing and coordinating the college-level hackathon.
- Assisted participants, managed event logistics, and ensured smooth execution of the event.
- Collaborated with faculty and student teams to support hackathon operations.

Soft Skills

- Leadership
- Communication
- Team Collaboration
- Problem Solving
- Time Management
